## **Home Work Support Room**

*We have now restarted our Homework Support Room for our students.*

*Completion of classroom assigned work is crucial to a student's academic success. A zero given on an assignment because work is not completed is not a true assessment of student learning. To ensure true assessment of student learning, we believe it is important for students to complete classroom assigned work. To assist students in establishing successful study*

*practices and understand the importance to their learning in completing assigned work, we will work with our students to help them complete missing assignments. Students who are not completing assigned work, will be asked by their teacher to attend a homework support room during lunch time to do any missing work. During this time, students will be given help in study skills and in completing the missed learning tasks. A failure to attend these study sessions will result in administrative contact with parents to pursue options to help the student successfully complete their work.*
